Stainless Steel Corners & End Dams

Hohmann & Barnard's Stainless Steel Corners & End Dams are pre-fabricated soldered inside corners, outside corners and end dams suitable for all H&B flashings. Simply place underneath flashing for the ultimate protection against moisture penetration.

Stainless Steel

- Corners and End Dams are made of 26 ga. (18 mil) Type 304 Stainless Steel - **ASTM A666, ASTM A480/480M, and ASTM A240/A240M** - (sheet metal ties and anchors)
- Can be used with: **Mighty-Flash® Stainless Steel Fabric Flashing, Flex-Flash® Flashing, Textroflash™ Flashing, and Stainless Metal Flashing.**
- Per the International Stainless Steel Forum, Stainless Steel objects have an average of 60% recycled content.

NOTE: Also available in Copper (for use with Copper NA Flashing, Copper SA Flashing, C-Fab™ Flashing, and Copper Metal Flashing)

Stainless Steel

- ☐ Inside Corner
- ☐ Outside Corner
- ☐ End Dam
